

**MOSQUITO CONTROL IS A COMMUNITY PROBLEM
BE A GOOD NEIGHBOR AND DO YOUR PART –
AIM FOR PREVENTION AND BETTER CONTROL!**

- ❖ Eliminate standing water and water holding container.
- ❖ Empty bird baths weekly.

- ❖ Clean out rain gutters and downspouts.

- ❖ Eliminate hiding places by cutting weeds, pruning shrubs, and disposing of useless artificial containers and other junk.

- ❖ Follow manufacturers' recommendations for proper care of swimming pools and empty wading pools if unused for two or more weeks.

- ❖ Stock ornamental pools with goldfish or minnows.

- ❖ Store pails, barrels, tubs, vases, boats , and wheel barrows upside down.

- ❖ Cover cisterns, rain barrels, and fire barrels with fine mesh screen (16x16 meshes to the inch)

- ❖ Repair or replace screens on doors and windows.

- ❖ Use repellents outdoors in the evening or stay indoors.

- ❖ Always read the pesticide label before applying pesticides around the home.
- ❖ Show this report to your neighbors. Ask them to do their part.

- ❖ Inspect your property weekly.
